About

Who I Am

I am Mohamed Wifak, a 30-year-old Moroccan designer currently living in Dubai. I specialize in translating ideas into visual communications and providing effective design solutions to businesses worldwide. With 10 years of experience, I have developed expertise in logo design, brand identities, and all aspects of both print and digital design. This includes packaging, brochures, books, company profiles, user interfaces (UI), PowerPoint presentations, and food menus, among other design-related services.

أنا محمد وفاق، مصمم مغربي في الثلاثين من عمري، وأعيش حالياً في دبي. أتخصص في تحويل الأفكار إلى تواصل بصري وتوفير حلول تصميم فعّالة للأعمال التجارية حول العالم. بفضل 10 سنوات من الخبرة، طورت مهاراتي في تصميم الشعارات والهويات التجارية، وجميع جوانب التصميم المطبوع والرقمي. يشمل ذلك تصميم العبوات، بروشور، كتب، ملفات التعريفية لشركات، والعروض التقديمية باستخدام (UI)، واجهات المستخدم مايكروسوفت باوربوينت، وقوائم الطعام، وغيرها من خدمات التصميم.

Designed Over 500 Logos For Businesses Across Various Industries.

JELOE JUICE

is an idea conceived and brought to life by two health-conscious brothers, mohamed and khalid . The vision that united them was simple and universal: to promote and encourage a healthier lifestyle in morocco.

هي فكرة ابتكرها وأبدعها شقيقان مهتمان بالصحة، محمد وخالد. كانت الرؤية التي جمعت بينهما بسيطة وعالمية: تعزيز وتشجيع نمط حياة أكثر صحة في المغرب.

LEZARA HOLDING

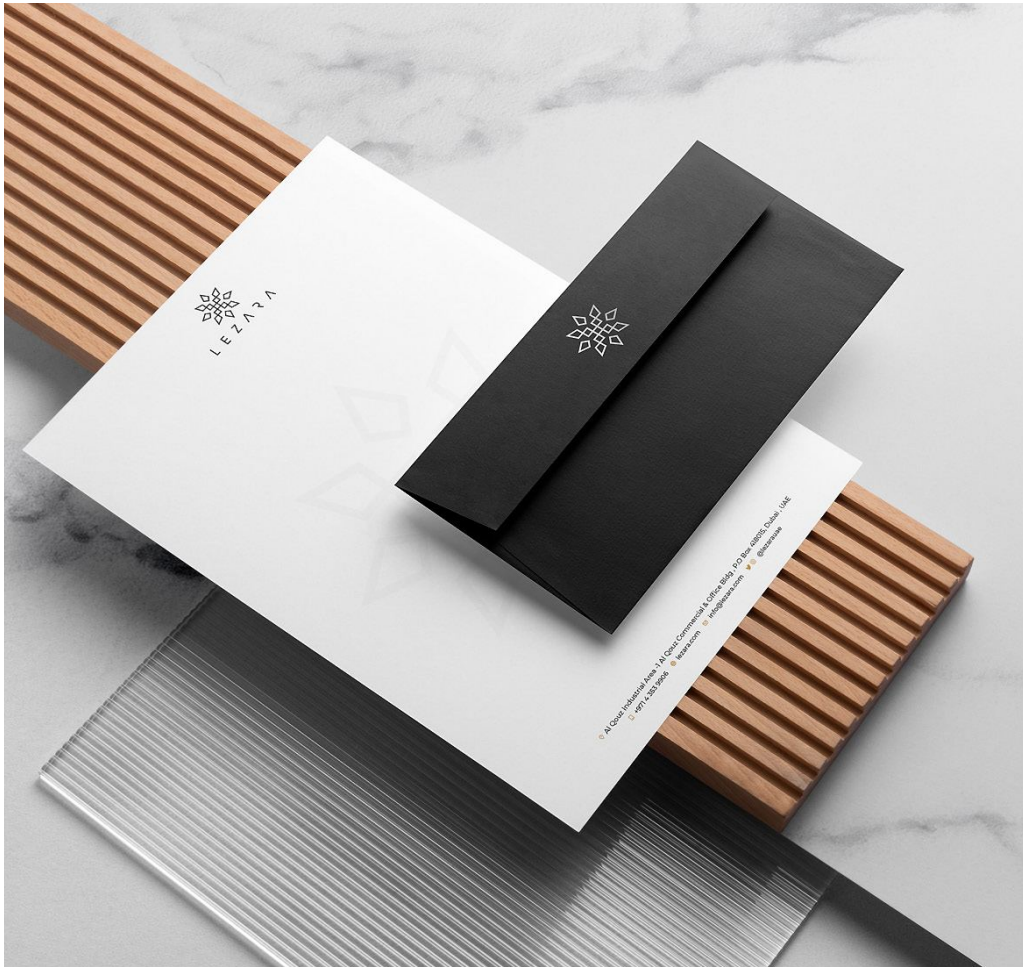

Experience that extends to more than **40** years in trade and services chain. We aim to create fair and sustainable value in everything we undertake, both for ourselves and all value chain factors: our people, our business stakeholders, the local communities we touch and the environment around us.

خبرة تمتد لأكثر من **40** عامًا في سلسلة التجارة والخدمات. نهدف إلى خلق قيمة عادلة ومستدامة في كل ما نقوم به، سواء لأنفسنا أو لجميع عوامل سلسلة القيمة: موظفينا، وأصحاب المصلحة في أعمالنا، والمجتمعات المحلية التي نتواصل معها والبيئة المحيطة بنا.

Our Strategy

Lezara will continue to create new value and solutions for ,customers and society

www.lezara.com 08

Abdulrahman Al Shehri

CEO

Welcome

More than five decades of continuous business operation certainly suggests a willingness to take a long-term view. And to embark on a journey of success one needs the tools of preparedness, foresight and strategy. At the LEZARA Group, these tools have been our chosen means for change and progress. They have led to years creating a multi-dimensional conglomerate with a portfolio of complementary businesses. Our absolute 20 the path of growth and succes in the past .commitment to operational excellence is the touchstone by which we judge all our diverse businesses

We started as a trading company and today no business sector is remote for us. As a organisation, our focus is to balance the interests of all major stakeholders in ways which work to everyone's mutual success. We utilize our experience and expertise in varied sectors to provide maximum benefit, which encourages repeat patronage and good will from our clients and partners. The key to our success has been our ability to seize the existing and emerging market opportunities, thereby building value for our trade and investment partners. The Group's growth is also related to our shared value system which emphasizes commitment to .excellence, closeness to customers and the spirit of innovation

We endeavour to be one of the most competitive business houses with emphasis on efficiency in operations, reliability for customers and thrust on development. Our diverse business divisions work closely together, sharing best business practices. They combine financial, managerial and operational skills and resources to .make a difference

Abdulrahman Al Shehri
CEO

www.lezara.com 07

LEZARA

Without compromising the principles of sustainability, compliance and ethical conduct; we remain, at all times, true to our values with integrity. Lezara group is committed to accountability and the ability to add value to anything we do.

ABOUT COMPANY

years in trade and 40 Experience that extends to more than services chain. We aim to create fair and sustainable value in everything we undertake, both for ourselves and all value chain factors: our people, our business stakeholders, the local .communities we touch and the environment around us

Gearing up for the future, we have the key success factors necessary to withstand the winds of change and are poised to make a paradigm shift in our growth. Our well- recognised market presence with a strong product portfolio is being marked up with newer brands and businesses. We look for long term growth by selecting sectors and markets where we see .ourselves having a distinctive role, now and in the future

We will continue the strategy of expanding in domestic and regional markets, enabling investment and sharing knowledge, improving competitiveness while unlocking new areas of growth

The accomplishments and eminence of the Lezara Group which began as the dream of one extended to be transformed into the dream of many. Each of our businesses is striving for the highest standards

of professional service, tailor-made solutions, and most of all, an experience you can trust

www.lezara.com 04

Agriculture

We connect producers and users of grains and oilseeds around the globe through origination, trading, processing, and distribution.

Irrigated agriculture has reached a stage where it needs a reform that focuses on productivity and sustainability of the investment made by the public sector and private farmers, as well as the rational use of its limited water resources. Irrigated agriculture is leading to the depletion of several aquifers and is putting the sustainability of the investments made at risk. Water productivity is still rela- tively low despite the introduction of modern irrigation techniques. The Ministry of Agriculture is developing a new agriculture strategy geared towards a greater macro-economic development of the sector, while sustaining the basic resourc- es and increasing their productivity.

www.lezara.com 12

CHAIRMAN'S MESSAGE

Our Conviction

Our Approach
Sustainable value is at the heart of our purpose as a company

Caring for People
Committed to protecting and investing in our people, who are crucial to our business

Working with Partners
We recognize that we can have a greater impact by working with others.

Responsible Supply Chain.
Our unique position in the value chain creates both opportunities and challenges Sustainability

SUSTAINABILITY

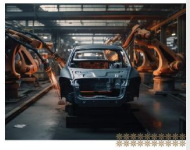

SCOPE OF WORK

Automotive

This Division develops its business throughout the world, from automotive trading, wholesaling and retailing to aftermarket businesses. While using new, digital technologies to improve our existing business models.

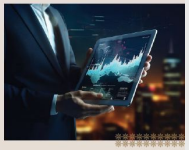

The automotive industry is a key pillar of the global economy; a main driver of macroeconomic growth and technological advancement in developing and developed countries. The value chain of the automotive industry spans very wide and covers many other adjacent industries; and hence creates a multiplier effect much higher than any other industry. This multiplier factor ranges between 7-5 between direct OEM jobs and the eco-system jobs.

Digital Trade

Data is not only a means of production, it is also an asset that can itself be traded, and a means through which our company are organized and assigned for deliverables.

With over 27 million consumers and a sizable number of global enterprises, Saudi Arabia is the largest Information and Communications Technology (ICT) market in the Middle East. The Saudi Arabian telecommunications and infor- mation technology industries represent more than 55 percent and 51 percent, respectively, of the total Middle East market.
The ICT strategy of the Ministry of Communications and Information Technolo- gy 23-2019 is targeting a goal of 50 percent growth of the IT sector and raising the Saudi IT workforce to 50 percent by 2023.

Supply Chain

We focus on the core activities within our company required to convert raw materials or component parts through to finished products or services by the high end tech tools to compensate and meet our customers expectations.

The rise of automation and value-added services are helping businesses to attain competitive differentiation by changing the way their warehouses and supply chains operate, looking towards a dynamic future across the globe.
The report discusses the key drivers of change in the warehousing sector (below) which have a potential impact on all other sectors of the economy.

Pharmaceutical

We understand that besides high quality products, trust, dedication and experience are also essential to be a reliable supplier to the pharmaceutical indus- try. We offers key functionalities in many different pharmaceutical products.

The Kingdom of Saudi Arabia began to take many precautionary measures to combat the Covid-19. The immediate action was to set up a committee of vari- ous governmental organizations to determine and implement the actions need- ed against Covid-[8] 19. Since there is no vaccine available for the outbreak yet, avoidance is the only approach to protect the transmission of the virus; Conse- quently, the MoH and other departments carried out major initiatives to inform the public on various forms of stopping the transmission of the virus followed by the Ministry of Health (MoH) punch line campaign "We all are responsible".

Food Services

We help many of the leading food service companies thrive by collaborating to develop new products, build better supply chains, manage risk and elevate quality of life for their consumers

The full-service restaurant segment accounted for the major share in the market, owing to the strong presence of the millennial population, the growing tourism industry, and acceptance of western culture across the country. Food service defines those businesses, institutions, and compa- nies responsible for any meal prepared outside the home. By type, the Sau- di Arabia foodservice market is segmented into full-service restaurants, fast food restaurants, cafes, and catering or institutional food sector

Industrial

We Invent Solutions to increase profitability and improve operations. Custom- ized products for industrial applications.

Based on a variety of export-oriented industries including oil and gas, metals and mining, logistics, agrochemicals and food and beverages, the Kingdom of Saudi Arabia has the largest industrial output in the MENA re- gion. Given the Kingdom's substantial hydrocarbons resources (including gases and liquids associated with crude oil and methane production) and low extraction costs, this industrial output has historically been dominat- ed by oil and gas related industries

Beauty

Nature-derived ingredients, resources and expertise for creating successful personal care products.

Cozmailfe aims to strengthen and maintain its position as one of the leaders in the GCC region in the distribution of renowned Perfumes & Cosmetics brands. In order to achieve this goal, we always strive to provide added value services and satisfy our clients' needs.
To provide and distribute prestigious American and European Beauty Care and Perfumes, in GCC & MENA region.

Bioindustrial

Across industries, manufacturers are looking for smarter ways to formulate their products in order to improve performance and gain total coset efficien- cies through our success networks and experiences.

We adopt the highest quality standards to deliver reliable service & high-quality products from the GMP certified production facility. Ensuring the health and safety of our employees is one of the core prin- ciples of our company. We follow the OSHA Standard, the appropriate health and safety guidelines for our biotech company.

ODIT
CPA & Advisory

Odit is a consultancy and auditing firm based in Saudi Arabia, offering specialized financial and strategic services. The name "Odit" was carefully crafted to stand out, reflecting creativity and innovation. Profile Company Odit 01

Our Services

Audit & Assurance

Internal Audits
we provide a thorough in-house auditing process customized to suit the size and characteristics of each business. Our specialized audit methodology starts by identifying key risks using a client-specific audit plan, ensuring a thorough and efficient procedure completed within a suitable timeframe.

External audits
We offer auditing services encompassing the approval of financial statements and management consulting for companies. Our services include providing observations and recommendations to address existing deficiencies. Additionally, we implement audit programs for institutions, companies, and government agencies. Throughout the fiscal year, we conduct numerous facility visits, adhering to generally accepted auditing standards.

Profile Company Odit 01

Our Values

Accountibility
At our company, we consider quality to be the responsibility of every individual, and each member of the team is accountable for upholding it.

Value people
We highly value our team members and actively support their development. We believe that the success of our company is directly tied to the collective success of our staff

Continuity
Delivering high-quality service extends beyond our current offerings, as it necessitates ongoing monitoring of the ever-changing and challenging business landscape, which evolves and advances daily. Consequently, we are consistently enhancing our audit approach to proactively align with the systems and operational mechanisms of the companies we audit.

Profile Company Odit 01

Who We Are

Mehtawa Al-Qawaim's Company is a professional consulting firm dedicated to offering comprehensive accounting and auditing services. The company is led by highly qualified and experienced Saudi professionals. It focuses on delivering top-tier professional services across the Kingdom of Saudi Arabia, aligning with the objectives of the Kingdom's Vision 2030, particularly in the development and advancement of the financial sector.

Abdullah Sonbul is a partner and a professional accountant with a Fellowship certificate from the Saudi Organization for Auditors and Accountants (SOCPA). He brings over twelve years of experience from several of the largest global auditing firms, including Deloitte and KPMG. Additionally, he has worked with leading investment solutions and asset management companies such as SEDCO Capital. His role in the Local Content and Government Contributory Procurement Authority has further enriched his expertise in the

OUR CONVICTION
Business Lines
At Lezara we pursue our mission, vision, and purpose across all segments of business starting from Startups, Entrepreneurs, and Establishments covering all SMEs and Mega Businesses
Our Value
Humility
We recognize our responsibility to foster long-term stability and growth, and to do business with integrity.
Commitment
We are committed to our customers, placing them at the center of everything we do.
Diversity
Respect for diversity in all its forms is part of our DNA.
Entrepreneurship
We empower our people to create and innovate as we build toward the future.
www.lezara.com
09

OUR CONVICTION
Our Goal
Our goal is to nourish the world in a safe, responsible and sustainable way. We combine our experience with new technologies and insights to serve as a trusted partner over all sectors we have
Our Vision
Driven by our purpose to create fair and sustainable value of product, services and solutions. We work to realize our vision for a safe and sustainable future
Our Mission
To become the preferred trading and services company applying insight, service quality and innovation to create sustainable growth for business partners and society
Our Strategy
Lezara will continue to create new value and solutions for customers and society

Abdulrahman Al Shehri
CEO
Welcome
More than five decades of continuous business operation certainly suggests a willingness to take a long-term view. And to embark on a journey of success one needs the tools of preparedness, foresight and strategy. At the LEZARA Group, these tools have been our chosen means for change and progress. They have led to years creating a multi-dimensional conglomerate with a portfolio of complementary businesses. Our absolute 20 the path of growth and success in the past commitment to operational excellence is the touchstone by which we judge all our diverse businesses
We started as a trading company and today no business sector is remote for us. As a organisation, our focus is to balance the interests of all major stakeholders in ways which work to everyone's mutual success. We utilize our experience and expertise in varied sectors to provide maximum benefit, which encourages repeat patronage and good will from our clients and partners. The key to our success has been our ability to seize the existing and emerging market opportunities, thereby building value for our trade and investment partners. The Group's growth is also related to our shared value system which emphasizes commitment to excellence, closeness to customers and the spirit of innovation
We endeavour to be one of the most competitive business houses with emphasis on efficiency in operations, reliability for customers and thrust on development. Our diverse business divisions work closely together, sharing best business practices. They combine financial, managerial and operational skills and resources to make a difference

ABOUT COMPANY
years in trade and 40 Experience that extends to more than services chain. We aim to create fair and sustainable value in everything we undertake, both for ourselves and all value chain factors: our people, our business stakeholders, the local communities we touch and the environment around us
Gearing up for the future, we have the key success factors necessary to withstand the winds of change and are poised to make a paradigm shift in our growth. Our well- recognised market presence with a strong product portfolio is being marked up with newer brands and businesses. We look for long term growth by selecting sectors and markets where we see ourselves having a distinctive role, now and in the future
We will continue the strategy of expanding in domestic and regional markets, enabling investment and sharing knowledge, improving competitiveness while unlocking new areas of growth
The accomplishments and eminence of the Lezara Group which began as the dream of one extended to be transformed into the dream of many. Each of our businesses is striving for the highest standards
of professional service, tailor-made solutions, and most of all, an experience you can trust
www.lezara.com
04

Agriculture
We connect producers and users of grains and oilseeds around the globe through origination, trading, processing, and distribution.
Irrigated agriculture has reached a stage where it needs a reform that focuses on productivity and sustainability of the investment made by the public sector and private farmers, as well as the rational use of its limited water resources. Irrigated agriculture is leading to the depletion of several aquifers and is putting the sustainability of the investments made at risk. Water productivity is still rela- tively low despite the introduction of modern irrigation techniques. The Ministry of Agriculture is developing a new agriculture strategy geared towards a greater macro-economic development of the sector, while sustaining the basic resourc- es and increasing their productivity.

CHAIRMAN'S MESSAGE

Our Conviction

Our Approach
Sustainable value is at the heart of our purpose as a company

Caring for People
Committed to protecting and investing in our people, who are crucial to our business

Working with Partners
We recognize that we can have a greater impact by working with others.

Responsible Supply Chain.
Our unique position in the value chain creates both opportunities and challenges Sustainability

SUSTAINABILITY

SCOPE OF WORK

Automotive

This Division develops its business throughout the world, from automotive trading, wholesaling and retailing to aftermarket businesses. While using new, digital technologies to improve our existing business models.

The automotive industry is a key pillar of the global economy; a main driver of macroeconomic growth and technological advancement in developing and developed countries. The value chain of the automotive industry spans very wide and covers many other adjacent industries; and hence creates a multiplier effect much higher than any other industry. This multiplier factor ranges between 7-5 between direct OEM jobs and the eco-system jobs.

Digital Trade

Data is not only a means of production, it is also an asset that can itself be traded, and a means through which our company are organized and assigned for deliverables.

With over 27 million consumers and a sizable number of global enterprises, Saudi Arabia is the largest Information and Communications Technology (ICT) market in the Middle East. The Saudi Arabian telecommunications and infor- mation technology industries represent more than 55 percent and 51 percent, respectively, of the total Middle East market.
The ICT strategy of the Ministry of Communications and Information Technolo- gy 23-2019 is targeting a goal of 50 percent growth of the IT sector and raising the Saudi IT workforce to 50 percent by 2023.

Supply Chain

We focus on the core activities within our company required to convert raw materials or component parts through to finished products or services by the high end tech tools to compensate and meet our customers expectations.

The rise of automation and value-added services are helping businesses to attain competitive differentiation by changing the way their warehouses and supply chains operate, looking towards a dynamic future across the globe.
The report discusses the key drivers of change in the warehousing sector (below) which have a potential impact on all other sectors of the economy.

Pharmaceutical

We understand that besides high quality products, trust, dedication and experience are also essential to be a reliable supplier to the pharmaceutical indus- try. We offers key functionalities in many different pharmaceutical products.

The Kingdom of Saudi Arabia began to take many precautionary measures to combat the Covid-19. The immediate action was to set up a committee of vari- ous governmental organizations to determine and implement the actions need- ed against Covid-[8] 19. Since there is no vaccine available for the outbreak yet, avoidance is the only approach to protect the transmission of the virus; Conse- quently, the MoH and other departments carried out major initiatives to inform the public on various forms of stopping the transmission of the virus followed by the Ministry of Health (MoH) punch line campaign "We all are responsible".

Food Services

We help many of the leading food service companies thrive by collaborating to develop new products, build better supply chains, manage risk and elevate quality of life for their consumers

The full-service restaurant segment accounted for the major share in the market, owing to the strong presence of the millennial population, the growing tourism industry, and acceptance of western culture across the country. Food service defines those businesses, institutions, and compa- nies responsible for any meal prepared outside the home. By type, the Sau- di Arabia foodservice market is segmented into full-service restaurants, fast food restaurants, cafes, and catering or institutional food sector

Industrial

We Invent Solutions to increase profitability and improve operations. Custom- ized products for industrial applications.

Based on a variety of export-oriented industries including oil and gas, metals and mining, logistics, agrochemicals and food and beverages, the Kingdom of Saudi Arabia has the largest industrial output in the MENA re- gion. Given the Kingdom's substantial hydrocarbons resources (including gases and liquids associated with crude oil and methane production) and low extraction costs, this industrial output has historically been dominat- ed by oil and gas related industries

Beauty

Nature-derived ingredients, resources and expertise for creating successful personal care products.

Cozmailfe aims to strengthen and maintain its position as one of the leaders in the GCC region in the distribution of renowned Perfumes & Cosmetics brands. In order to achieve this goal, we always strive to provide added value services and satisfy our clients' needs.
To provide and distribute prestigious American and European Beauty Care and Perfumes, in GCC & MENA region.

Bioindustrial

Across industries, manufacturers are looking for smarter ways to formulate their products in order to improve performance and gain total coset efficien- cies through our success networks and experiences.

We adopt the highest quality standards to deliver reliable service & high-quality products from the GMP certified production facility. Ensuring the health and safety of our employees is one of the core prin- ciples of our company. We follow the OSHA Standard, the appropriate health and safety guidelines for our biotech company.

Our Vision

The company aims to be a leader in providing auditing services, financial and accounting consultations, zakat and tax services, as well as forensic accounting services.

Our Mission

Providing review and audit services, accounting and financial consultations, judicial accounting, and zakat and tax services professionally through highly experienced and qualified professional staff to meet the needs of our clients and help them achieve their goals.

Profile Company

Profile Company Odit 01

Our Services

Audit & Assurance

Internal Audits
we provide a thorough in-house auditing process customized to suit the size and characteristics of each business. Our specialized audit methodology starts by identifying key risks using a client-specific audit plan, ensuring a thorough and efficient procedure completed within a suitable timeframe.

External audits
We offer auditing services encompassing the approval of financial statements and management consulting for companies. Our services include providing observations and recommendations to address existing deficiencies. Additionally, we implement audit programs for institutions, companies, and government agencies. Throughout the fiscal year, we conduct numerous facility visits, adhering to generally accepted auditing standards.

Profile Company Odit 01

Our Values

Accountibility
At our company, we consider quality to be the responsibility of every individual, and each member of the team is accountable for upholding it.

Value people
We highly value our team members and actively support their development. We believe that the success of our company is directly tied to the collective success of our staff

Continuity
Delivering high-quality service extends beyond our current offerings, as it necessitates ongoing monitoring of the ever-changing and challenging business landscape, which evolves and advances daily. Consequently, we are consistently enhancing our audit approach to proactively align with the systems and operational mechanisms of the companies we audit.

Profile Company Odit 01

Who We Are

Mehtawa Al-Qawaim's Company is a professional consulting firm dedicated to offering comprehensive accounting and auditing services. The company is led by highly qualified and experienced Saudi professionals. It focuses on delivering top-tier professional services across the Kingdom of Saudi Arabia, aligning with the objectives of the Kingdom's Vision 2030, particularly in the development and advancement of the financial sector.

Abdullah Sonbul is a partner and a professional accountant with a Fellowship certificate from the Saudi Organization for Auditors and Accountants (SOCPA). He brings over twelve years of experience from several of the largest global auditing firms, including Deloitte and KPMG. Additionally, he has worked with leading investment solutions and asset management companies such as SEDCO Capital. His role in the Local Content and Government Contributory Procurement Authority has further enriched his expertise in the

زمالة صانع لتمكين
القيادات التقنية الناشئة
زمالة صانع هو برنامج يمنح السعوديين الذين يظهرون كلًا من القدرة
على القيادة والمهارات التقنية الفرصة للارتقاء بمهاراتهم عبر التعلم من أبرز
المؤسسات التعليمية العالمية وتبادل الخبرات مع خبراء التقنية العالميين،
مما يمهد الطريق لمستقبل مهني واعد وصناعة جيل تقني قائد

رحلة من الابتكار والتعلّم لعشرين
موهبة سعودية في قلب التقنية العالمية
